

Sportsmanship Summit

Oscoda May 2016

The final sportsmanship summit for 2016 was held at Oscoda High School. The planned event was to primarily include activities for competition and enjoyment among the attendees. The morning started out with a nutrition specialist from the Saginaw ISD speaking about the importance of a healthy mind and healthy body. Emphasis was placed on the importance of hydration, the importance of a good breakfast and "refueling" after games. Students from each school were pre-organized into teams and with their teams – they each took surveys on lap tops supplied by Oscoda school. The surveys contained questions about sportsmanship readings. After the surveys were complete, a retired coach/teacher spoke to the students about respect, bonding and the values and experiences gained from participating in athletics. The remaining part of the day was "play time" with team competitions including volleyball, three point shoot, and a scavenger hunt. Lunch was served and seniors were presented with certificates for their service to the sportsmanship summit.
