

# Sportsmanship Summit

## Winter 2015-16

The winter sportsmanship summit was held at Whitemore Prescott on Friday January 8, 2016. It was another good turn out with almost 100 people present. Athletic Director Jeff Erickson from WP put on the program. Jeff's topic was to follow the MHSAA "Captain's Clinic". Using video, power points and discussion; students were broken up in groups again and spent the day covering about half of the 8 hour program. Although the consensus from students was that they missed the "hands on" experiences and games from previous summits, the consensus was that the material that was covered was very beneficial and meaningful to the student athletes. The hope and suggestions were that the individual schools and their representatives would find time to continue and finish the remaining half of the Captains Clinic. Another successful sportsmanship summit at WP. The spring summit is tentatively scheduled for sometime in May at Oscoda High School.
